Subject: Save Burnham Mansion

I just want to let you know that I support the school district in the plan set forth for Central. I have tried to follow both sides as to the best way to proceed and honestly I have not seen any viable solutions to save the Mansion. The voters voted to keep Central central and the Board has proceeded accordingly. I'm sorry for what you are having to go through (name calling etc.) to perform the job we elected you to do. I have seen your invitation to present a plan to preserve the historic buildings, I have not seen anything, just opinions.

Again, I support the Board in working compassionately and diligently to implement some very complex issues and changes for our students.

Jeanne Gladney
